**TRAFFIC**

**ARMORZONE BARRIERS**

ArmorZone™ TL-2 Plastic Barrier is the world’s first 100% polyethylene water filled barrier (no steel reinforcement) to have been judged to have satisfied the evaluation criteria of NCHRP 350 Test Level 2 (TL-2). ArmorZone™ Barriers are rated TL-1 in QLD. The unique polyethylene composition, profile design and steel pin connector allow the barrier to be installed straight or curved to a minimum radius of 28m if required. ArmorZone™ TL-2 Plastic Barrier made up of plastic units that are joined together using a steel pin connector and filled with water. This provides a positive work zone barrier protection to temporary construction sites and other miscellaneous roadside activities. ArmorZone™ TL-2 Plastic Barrier has been designed and tested to meet the evaluation criteria of NCHRP 350 Test Level 2 (TL-2) for a longitudinal barrier.

- Approved to NCHRP 350 TL-2
- 870mmH x 450mmW x 2000mmL
- 50kg when empty
- Capacity: 560L
- Durable polyethylene plastic
- 200mm fill hole with plastic cap
- Approved for speeds up to 70kph
- Includes steel connecting pin allowing sections to be locked together

**ANTI-GAWK SCREENS**

- 2m (L) x 1.2m (H)
- 50mm x 50mm welded mesh
- Excellent debris protection

SONIC QUILT

SONIC QUILT - SOUNDPROOF CURTAINS & SCREENS

Our portable Sonic Quilts reduce noise so you can comply with Government legislation and provide safe and enjoyable working conditions for employees and not disturb the environment.

SONIC QUILT - SOUNDPROOF CURTAINS & SCREENS

Sonic Quilt Soundproof curtains and screens provide maximum noise reduction and undproofing by combining sound barrier and noise absorption products into the one flexible soundproof curtain panel.

FEATURES
- Weather, fire and UV resistant
- Accommodate access, ventilation and maintenance requirements while retaining high noise control.
- Quick and easy install around Site works and noisy operations.
- Clean easily and effortlessly.
- Can also control the spread of dust and fumes
- Easily incorporate vision panels, access doors and other penetrations.
- NRC 0.8 reduction for effective sound attenuation

APPLICATIONS
Some typical applications include noise control enclosures around:
- Earth and road works
- Construction sites
- Night works
- Civil engineering sites
- Drilling sites
- Building refurbishments
- Tunnel and rail projects
