Introduction

Orange Hire is a specialist supplier of earthmoving, compaction, attachments and traffic solutions to businesses on the east coast of Australia.

At Orange Hire, we believe that hiring equipment should be simple. Your enquiries are quickly answered by our expert team, your equipment is low-houred, in top condition and arrives on time. Sounds easy, but it's hard to find. At Orange Hire we've cracked the code of doing equipment hire right and that's refreshing!

WE HAVE

-  The largest fleet on the east coast for earthmoving, attachments and traffic equipment.
-  An experienced team of experts means you talk to someone who 'gets it'.
-  A new and reliable fleet with an average age of just over 2 years.
-  Value for money with our flexible long-term rates and purchase options.

You'll love our equipment - and if you're not happy with the quality of the equipment on delivery, we'll swap or return it free of charge!

Done right.
That's refreshing.

About Orange Hire

Founded in 2010, Orange Hire is a privately owned business that specialises in working with construction industry professionals in NSW, QLD and VIC.

We've grown quickly over the last eight years. We put our success down to living and breathing a few simple principles. They're the foundation of our business.

OUR TEAM

At Orange Hire, our people are our most valuable asset. They're the best in the business. We take care of them so they can focus on taking care of our customers.

We are committed to investing in our diverse and talented team of people.

We've built a team you can rely on to go the extra mile. They solve problems effectively because they understand what matters and act fast.

Above all, our team are safe. They take personal accountability for their safety and the safety of their teammates.

OUR VISION

We're more than a hire company.

Orange Hire is a partner that understands our customer's business and delivers responsive and flexible equipment solutions.

OUR BRAND VALUES

Our brand is a leader in the market because we have positive, passionate and safe people on board.

We WOW customers with service and we deliver high quality, reliable and safe equipment.

Safe, Positive, Passionate People

Safety always comes first. We work together and take ownership for delivering industry leading results.

We firmly believe open and honest communication drives engagement and builds trust. Our passion and determination is contagious.

Challenge The Status Quo

We must never settle for "good enough" because good is the enemy of great. We actively seek out opportunities for improvement. We embrace and drive change.

Wow Customers With Service

Our customers are at the core of what drives us and we adapt to meet their needs.

Our customers trust us to deliver on our promise because we are consistent, nimble and responsive.

Do It Right

Do it once, do it right! We follow process and execute efficiently and with consistency.

We understand our business and are focused on delivering outstanding commercial outcomes. We must measure what matters - what gets measured gets done.

Why Orange Hire?

We are a dynamic business with the flexibility to meet the changing needs of our customers across a range of key sectors.

CONSTRUCTION, INFRASTRUCTURE & INDUSTRIAL

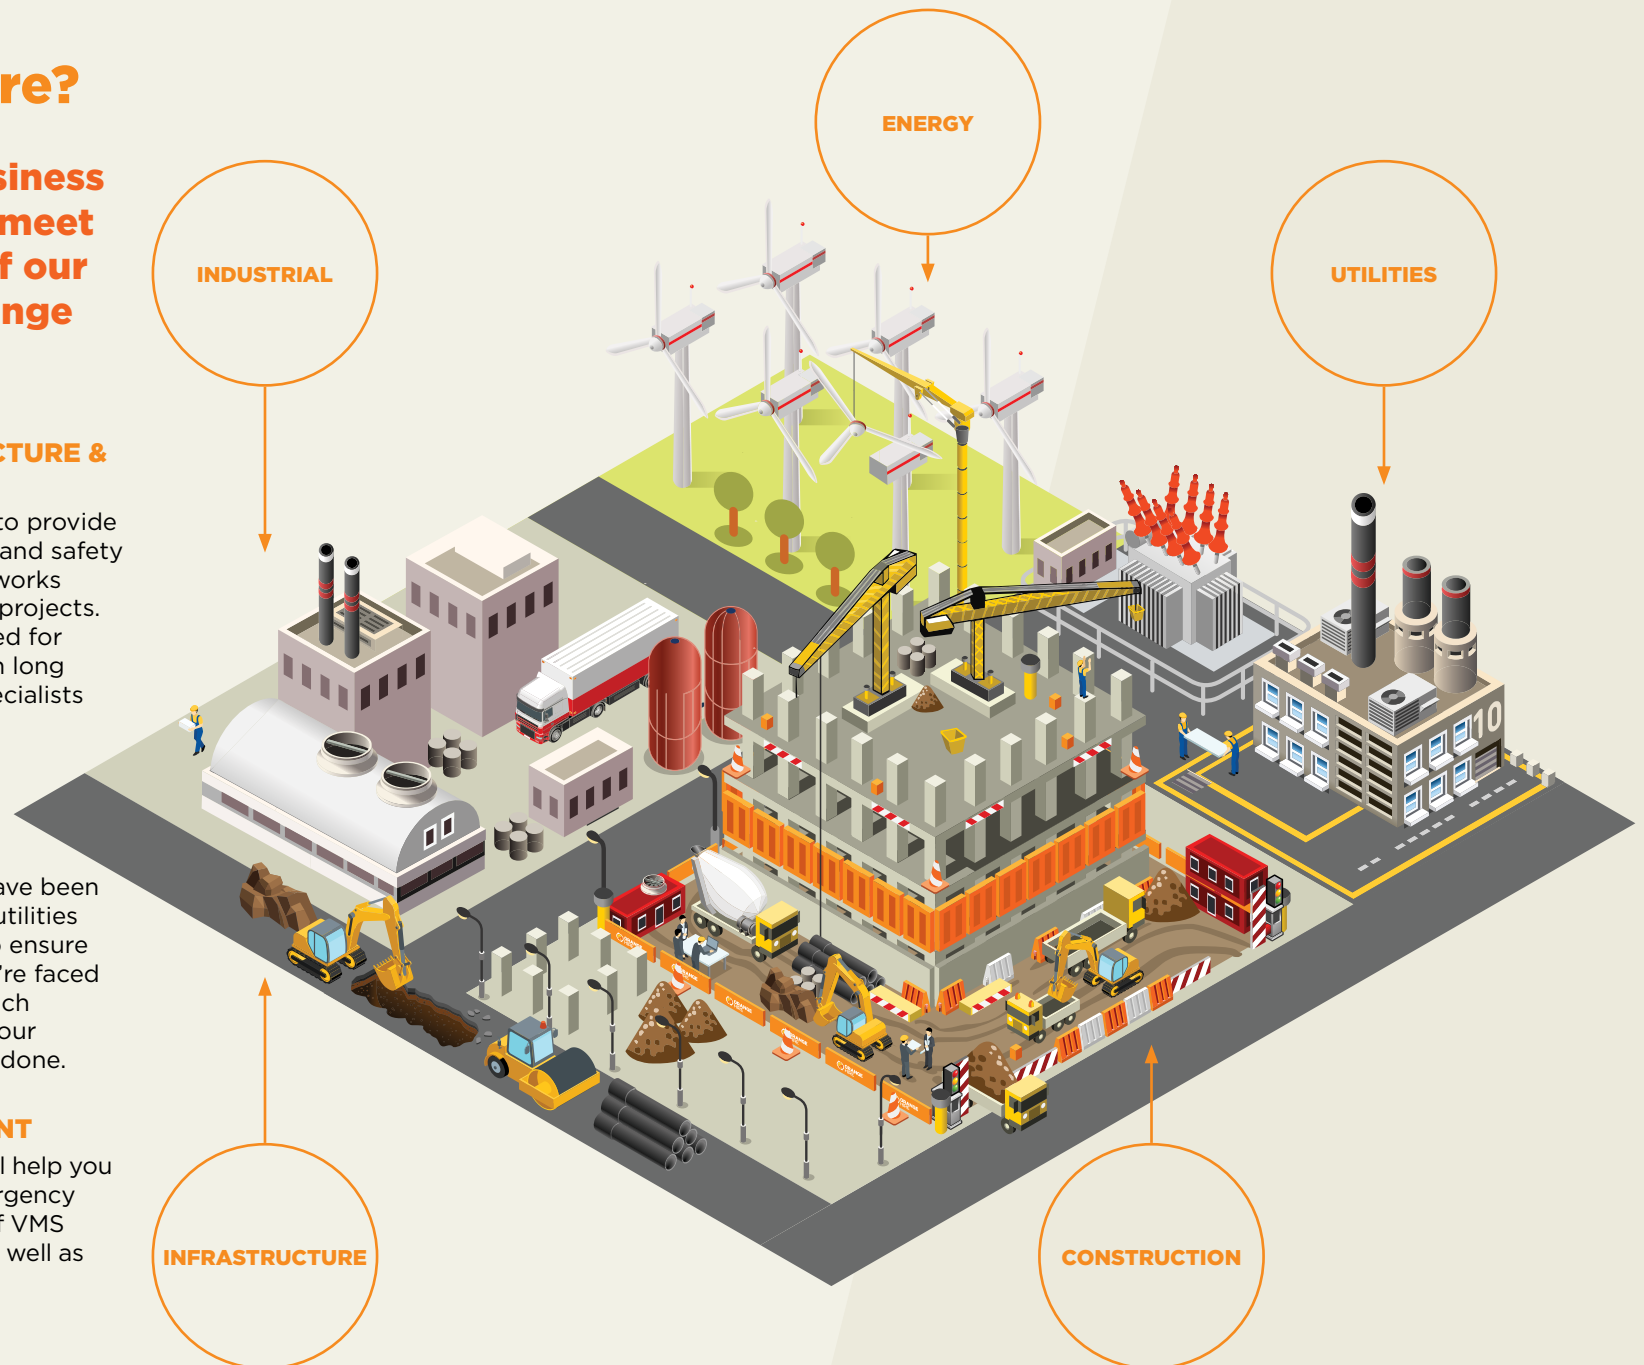

Our machines have been selected to provide the best in reliability, performance and safety for everything from detailed earthworks through to large-scale subdivision projects. Plus, our business model is designed for efficiency and economic viability in long term projects, so infrastructure specialists and joint ventures can reap the benefits of budget-friendly long term equipment hire.

ENERGY AND UTILITIES

A large number of our machines have been involved in significant energy and utilities works, so we know what it takes to ensure a successful pipeline. Whether you're faced with narrow access, difficult to reach requirements or remote locations, our machines will help you get the job done.

ROAD & TRAFFIC MANAGEMENT

Our fleet of adaptive equipment will help you take care of both planned and emergency traffic management, with a range of VMS trailers, light towers, traffic lights as well as simple essentials like road plates.

Safety, Quality & Environment

In this industry, there is no margin for error when it comes to safety. That's why Orange Hire lives and breathes safety. We are committed to zero harm.

SAFETY

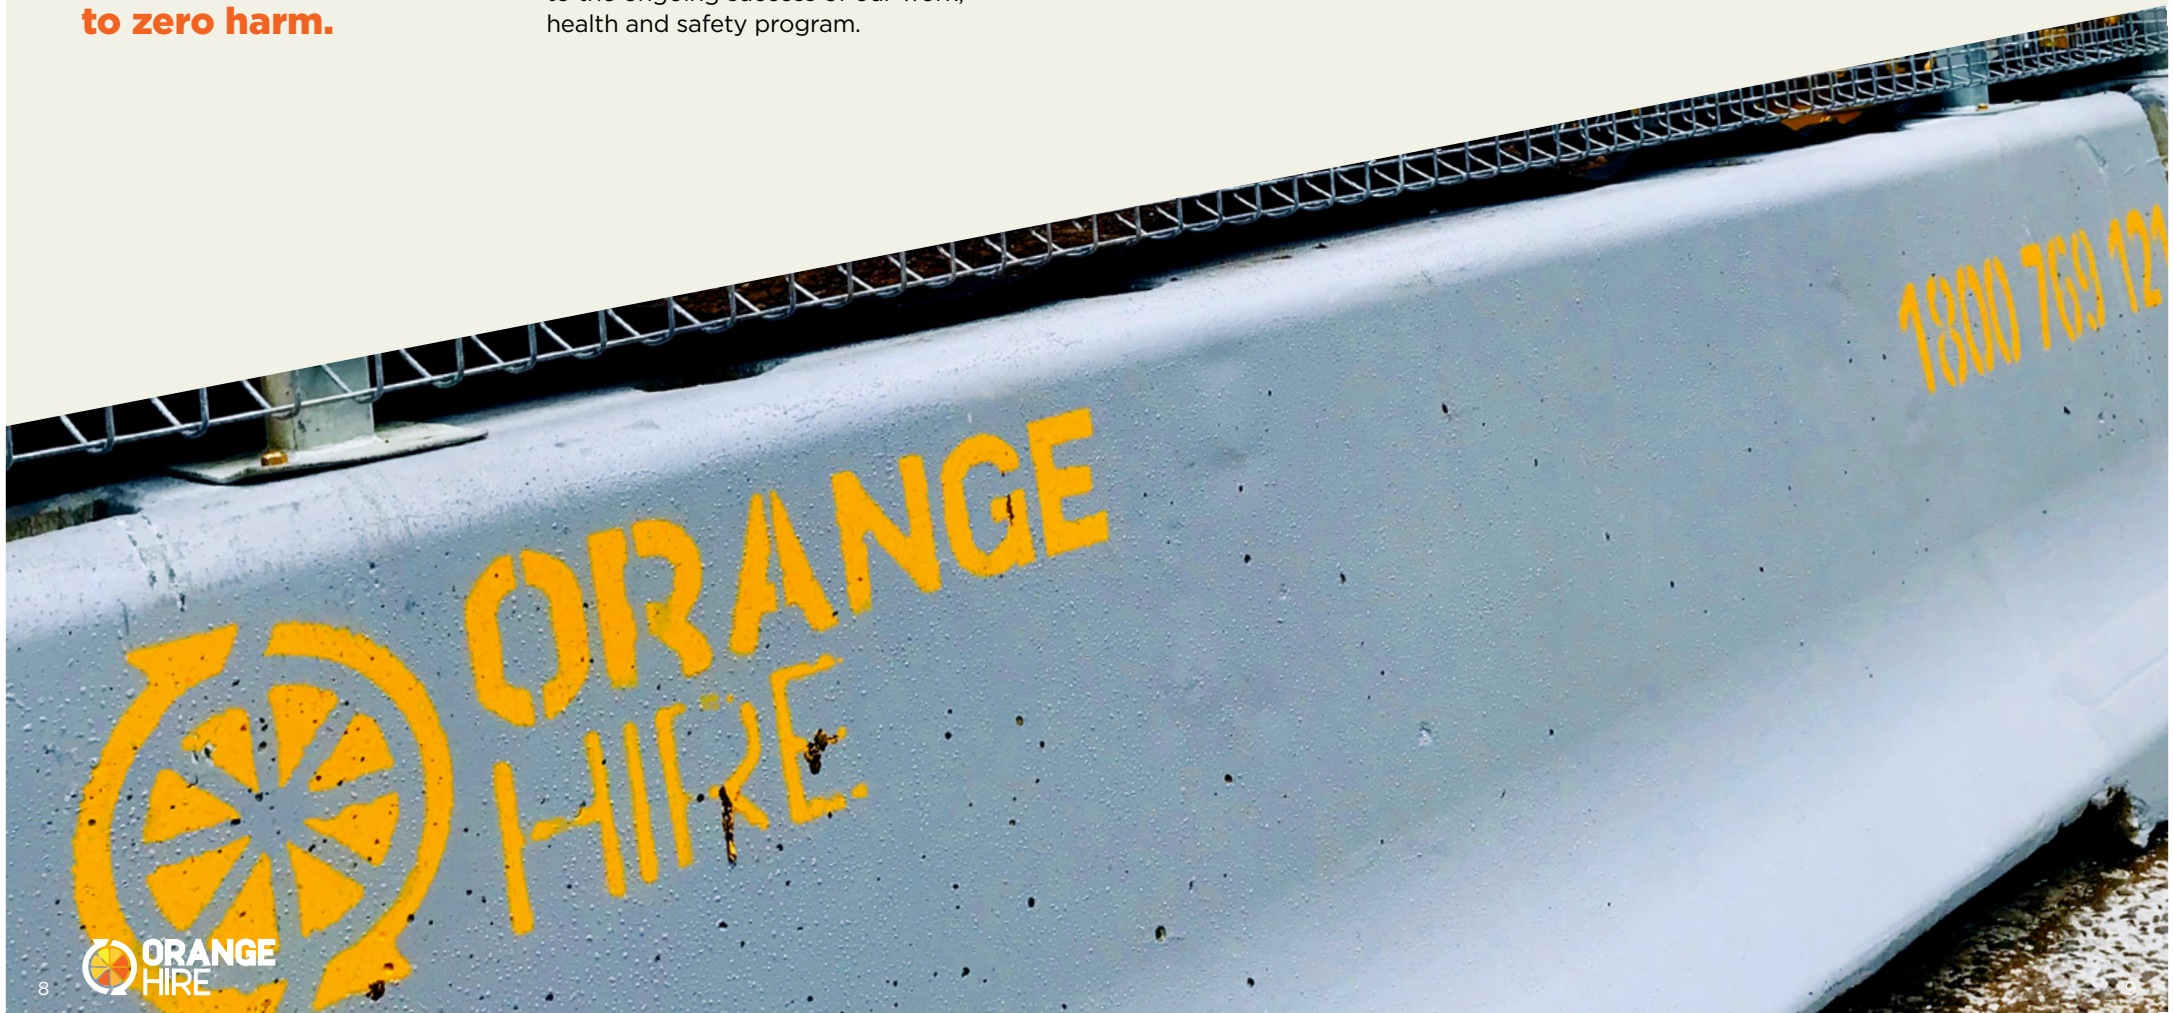

We are committed to zero harm and perpetual improvement of safety standards. Our priority is the health, safety and wellbeing of our workforce, customers, and the community. We encourage open communication with the expectation everyone will contribute to the ongoing success of our work, health and safety program.

QUALITY

Orange Hire's approach to quality management is to focus on key areas of customer, supplier and contractor risk. Our systems are simple, practical and flexible, ensuring our ability to service customers are always a cut above.

ENVIRONMENT

Orange Hire manages and limits emissions, wastes, spills and resources to reduce environmental impact. Orange Hire has a proven ability to meet and exceed environmental management requirements on major projects across Australia.

Our Customers, Partners & Projects

We don't try to be all things to all people. We are specialists.

Orange Hire is an industry leader servicing a handful of niche markets. We provide exceptional service and equipment to the civil and construction industry.

We know project requirements and the ability to offer flexible solutions are key to success on large scale projects.

This success has come as the result of an unflinching commitment to service, safety and quality.

By focussing on selected markets and aligning our product range to suit specific customers, we can provide the right equipment, deliver on time, and truly delight our customers.

WE ASKED OUR CUSTOMERS:

WHAT FRUSTRATES YOU WHEN IT COMES TO HIRE?

- Being offered equipment that is old, unreliable or unsafe
- Companies that are sloppy, resulting in admin errors and slow response times
- The right equipment isn't available when you need it

- Delays due to late deliveries or pickups
- Hire companies staffed with people that don't understand the equipment

WE HEAR YOU!

THIS IS WHY OUR CUSTOMERS CHOOSE ORANGE HIRE:

- Our team is helpful, friendly and knowledgeable
- We follow up quotes and enquiries quickly
- We deliver the newest, most reliable equipment
- We focus on communication and always keep our customers informed
- We arrive on time
- We get it right the first time, avoiding messy credits or reworks
- Feedback is critical: we listen and fix what isn't working

AND WE PUT SAFETY FIRST, IN EVERYTHING WE DO.

OUR PARTNERS

Orange Hire partners with a range of organisations at both industry and community level. These organisations are an integral part of Orange Hire operations:

Civil Contractors Federation (CCF)

Hire and Rental Industry Australia (HRIA)

SOME OF OUR KEY CUSTOMERS AND PROJECTS

Excavators - 0.8T - 8T

A wide range of excavators available for dry hire.

At Orange Hire we are the largest specialist provider of dry hire earthmoving equipment. With a range of high quality, low hour excavators ranging from 0.8t - 8t we have the excavator you need to get the job done right.

INCLUSIONS:

- Standard buckets including: 300mm, 450mm, 600mm, 900mm, 1500mm mud bucket & ripper
- Rubber tracks
- Risk assessment & service history, conditional registration

OPTIONS:

- Large range of attachments to suit various models including rippers, trenchers, sieve buckets, rocksaws and rock grabs, augers/hammers, compaction plates, compaction wheels. See page 16 and 17
- Plant trailer

0.8T MINI EXCAVATOR

Product Overview:

- Ultra-compact design for narrow access
- Swing boom up to 60 deg
- Adjustable track width

1.7T MINI EXCAVATOR

Product Overview:

- Zero tail swing, ultra-compact design
- Swing boom up to 65 deg
- Adjustable track width

2.5T MINI EXCAVATOR

Product Overview:

- Zero tail swing
- Hammer & auger piping
- Swing boom up to 75 deg

3.5T MINI EXCAVATOR

Product Overview:

- Zero tail swing
- ROPS/FOPS or A/C cab
- Hammer & auger piping
- Swing boom up to 70 deg

5.5T MINI EXCAVATOR

Product Overview:

- Easy-open front slide windows
- Enhanced digging force
- Tight tail swing
- Digital control panel

8T EXCAVATOR

Product Overview:

- Reduced swing radius
- Hammer & auger piping
- Swing boom up to 70 deg

Excavators - 10T - 35T

Get the job done faster with the right excavator.

Our range of medium to large excavators will help you get the job done right, no matter what it is! They have a range of features you need to meet your jobsite requirements. If you are not sure which is the right excavator for you, one of our team can help you.

INCLUSIONS:

- Standard buckets including 600mm, 900mm, 1200mm, 1350mm, 2000mm mud bucket & ripper
- Rear camera & UHF radio
- Risk assessment & service history
- Conditional registration

OPTIONS:

- Rubber track pads, height & slew limiter, GPS machine control ready, tilt hitch, windscreen demo guard, case drain line
- Large range of attachments including rippers, trenchers, tilt buckets, rock breakers, rocksaws and rock grabs, augers/hammers, compaction plates, compaction wheels. See page 16 and 17

21T EXCAVATOR

Product Overview:

- Conventional swing radius
- ROPS/FOPS - A/C Cab
- Hammer & auger piping

10T EXCAVATOR

Product Overview:

- Zero tail swing
- Hammer & auger piping
- Swing boom up to 60 deg

13.5T EXCAVATOR

Product Overview:

- Reduced swing radius
- Tier 4 engine
- Hammer auger & additional auxiliary piping
- Dozer blade - mono boom or offset boom

14.5T EXCAVATOR

Product Overview:

- Hammer & auger piping
- Dozer blade
- Mono boom

23.5T EXCAVATOR

Product Overview:

- Reduced radius machine
- Increased breakout force
- Hammer auger & additional auxiliary piping

30T EXCAVATOR

Product Overview:

- Conventional swing radius
- Hammer & auger piping
- Various makes/models on offer from 26t to 30t

35T EXCAVATOR

Product Overview:

- Conventional swing radius
- Hammer & auger piping

Excavator Attachments

Whatever the excavator attachment we have you covered.

We have a huge range of excavator attachments for hire, suitable for either your existing machine or our hire fleet!

TILT BUCKET

Product Overview:

- Suits 2.5t – 35t excavators
- Designed to tilt 30-45 degrees both left and right
- Hydraulic tilt with quick coupler

AUGER & DRILL BITS

Product Overview:

- Auger bits to suit most soil & rock applications
- Range of sizes available

SIEVE BUCKET

Product Overview:

- Suits 3.5t – 35t excavators
- Sorting & sifting mixed size materials

PULVERISER

Product Overview:

- Suits 20-35t excavators
- Suits a variety of machines
- Interchangeable jaws

ROCKSAW

Product Overview:

- Suits 3.5t – 30t excavators
- Designed to cut through tough rock, sandstone or concrete
- Range of hitch dimension sizing configurations available

COMPACTION WHEEL

Product Overview:

- Suits 3.5t – 35t excavators
- Provides efficient soil compaction
- Padfoot drum wheel

ROCK BREAKER

Product Overview:

- Suits 0.8t – 50t excavators
- Suits a variety of machines
- Easy to fit, operate and grease on site
- Range of hitch dimension/sizing configurations available

RIPPER

Product Overview:

- Suits 0.8t – 35t excavators
- Used to pry out rocks, rip through tough ground or break through other tough materials

AUGER DRIVE

Product Overview:

- Suits 0.8t – 35t excavators
- Hydraulic auger drive motor
- Planetary drive provides torque required for drilling power

COMPACTION PLATE

Product Overview:

- Suits 4.5t – 35t excavators
- Backfilling, and vertical and inclined compaction
- Protected hydraulic system

HYDRAULIC ROCK GRAB

Product Overview:

- Suits 3.5t – 35t excavators
- Used to lift and shift large/bulky items
- Wide opening jaws for grabbing and gripping
- Hydraulic & manual styles available

- Large range of attachments to suit including, buckets, sweepers, trenchers, pallet forks, auger drives, mulcher, leveling bar, slasher. See page 20 and 21
- Plant trailer

65-75HP SKID STEER

Product Overview:

- Iso Pilot (joystick) operator controls, two speed travel
- Tier 4 engine, 65hp & 75hp models available

30HP TRACKED LOADER

Product Overview:

- Very low ground pressure
- Ultra compact track loader 1250mm wide
- Iso Pilot (joystick) operator controls

70-80HP TRACKED LOADER

Product Overview:

- A/C cabin
- Iso Pilot (joystick) operator controls,
- Vertical lift & self leveling bucket make for easier load dumping tasks

90-100HP TRACKED LOADER

Product Overview:

- A/C cabin
- Iso Pilot (joystick) Operator Controls,
- Vertical lift & self leveling bucket for easy load/dumping
- Standard & high flow auxiliary hydraulics

Loader Attachments

Improve your efficiency no matter what the job.

We have a huge range of skid steer/track loader attachments for hire, suitable for either your machine or ours!

4-IN-1 BUCKET

Product Overview:

- Fits a variety of posi tracks and skid steers
- Fits all sizes of machines
- Features a dozer, serrated edges, a box blade, and a bucket

SWEEPER

Product Overview:

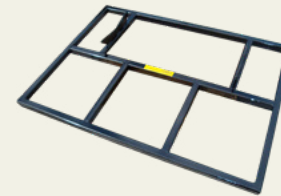

- 1600mm broom with bucket for collection of dust, debris & excess materials
- Reversible broom rotation, windrow material

TRENCHER

Product overview:

- Used for cutting through hard soil, roots, rock, asphalt, soft shale and other surfaces
- Ideal for landscaping, civil contractors, pipe layers and more
- Cutting width of 100/150/200mm
- Max cutting depth 900mm

LEVELLING BAR

Product Overview:

- Also known as a spreader bar or smudge bar
- Picked up in jaw of 4in1 bucket for use
- Variety of sizes to suit different loader

SLASHER

Product Overview:

- Effective cutting and clearing of grass and low ground shrubbery
- Heavy duty construction

GRAPPLE BUCKET

Product Overview:

- Hydraulically operated grapple fitted to a rock bucket to provide a grabbing arm to trap and contain debris

PALLET FORKS

Product Overview:

- Move pallets over harsh terrain
- Weight capacity: 1500/1800kgs
- Lockable tine position
- Tine length: 1070mm

AUGER DRIVE MOTORS & DRILL BITS

Product Overview:

- Hydraulic auger drive motor
- Auger bits to suit most soil & rock applications
- Planetary drive provides torque required for drilling power

MULCHER

Product Overview:

- Heavy duty forestry mulcher
- Shred/grind up to 200mm diameter hardwood trees
- Rotary drum with steel teeth
- 90-100hp track loader with universal loader hitch size
- High flow hydraulic system with case drain
- Specialist attachment with a high risk of injury

TRACK LOADER SIEVE BUCKET

Product Overview:

- Sorting & sifting mixed size materials
- Lift rocks & other foreign materials out of soil on site
- Made from high strength steel
- Heavy duty design
