INTRODUCTION

Orange Hire is a specialist supplier of earthmoving, compaction, attachments and traffic solutions to businesses on the east coast of Australia.

At Orange Hire, we believe that hiring equipment should be simple.

Your enquiries are quickly answered by our expert team, your equipment is low-houred, in top condition and arrives on time. Sounds easy, but it's hard to find.

“

At Orange Hire we've cracked the code of doing equipment hire right and that's refreshing!

We have

Large Fleet

We have the largest fleet on the east coast for earthmoving, attachments and traffic equipment.

Latest Equipment

The average age of our fleet is only 2 1/2 years, this means you always get the safest, latest, most reliable equipment available.

Experienced Team

Our team of experts, means you talk to someone who “gets it”.

Value for Money

With our flexible long term rates and purchase options you always get value for money.

ABOUT ORANGE HIRE

Founded in 2010, Orange Hire is a privately owned business that specialises in working with construction industry professionals in NSW, QLD and VIC.

We've grown quickly since 2010 and we put our success down to living and breathing a few simple principles. They're the foundation of our business.

Our Team

At Orange Hire, our people are our most valuable asset. They're the best in the business. We take care of them so they can focus on taking care of our customers.

We are committed to investing in our diverse and talented team of people.

We've built a team you can rely on to go the extra mile. They solve problems effectively because they understand what matters and act fast.

Above all, our team are safe. They take personal accountability for their safety and the safety of their teammates.

Orange Hire was thrilled to be recognised and ranked #2 on the Property, Construction and Transport list from over 750 nominated Best Places To Work across Australia and New Zealand for our achievements and practices around maintaining a strong and inclusive company culture, developing our team and fostering leadership, and of course, promoting safety in everything we do.

“We're more than
a hire company.”

Our Vision

Orange Hire is a partner that understands our customer's business and delivers responsive and flexible equipment solutions.

Our Values

Our brand is a leader in the market because we have positive, passionate and safe people on board.

We WOW customers with service and we deliver high quality, reliable and safe equipment.

Empower Safe Passionate People.

Safety always comes first. We trust each other and work as a team. We are passionate and believe in developing ourselves so we can 'be our best'

Challenge

We embrace and drive change with a mindset of continuous improvement.

Do it Right!

We follow process and execute efficiently and with consistency. We understand our business and are focussed on delivering outstanding commercial outcomes for the stakeholders.

WOW Customers

Our customers trust us to deliver on our promises because we are consistent, nimble, and responsive.

WHY ORANGE HIRE

We are a dynamic business with the flexibility to meet the changing needs of our customers across a range of key sectors.

Our Experience across varying markets

Construction, Infrastructure and Industrial

Our machines have been selected to provide the best in reliability, performance and safety for everything from detailed earthworks through to large-scale subdivision projects. Plus, our business model is designed for efficiency and economic viability in long term projects, so infrastructure specialists and joint ventures can reap the benefits of budget-friendly long term equipment hire.

Energy and Utilities

A large number of our machines have been involved in significant energy and utilities works, so we know what it takes to ensure a successful pipeline. Whether you're faced with narrow access, difficult to reach requirements or remote locations, we're here to help you get the job done.

Road and Traffic Management

Our fleet of adaptive equipment will help you take care of both planned and emergency traffic management, with a range of VMS trailers, light towers, water filled and concrete barrier solutions, traffic lights as well as simple essentials like road plates.

SAFETY, QUALITY AND ENVIRONMENT

In this industry, there is no margin for error when it comes to safety.

That's why Orange Hire lives and breathes safety. We are committed to zero harm.

Safety

We are committed to zero harm and perpetual improvement of safety standards. Our priority is the health, safety and wellbeing of our workforce, customers, and the community. We encourage open communication with the expectation everyone will contribute to the ongoing success of our work, health and safety program.

Quality

Orange Hire's approach to quality management is to focus on key areas of customer, supplier and contractor risk. Our systems are simple, practical and flexible, ensuring our ability to service customers are always a cut above.

Environment

Orange Hire manages and limits emissions, wastes, spills and resources to reduce environmental impact. We have a proven ability to meet and exceed environmental management requirements on major projects across Australia. Enquire about Tier4 machinery options.

OUR CUSTOMERS, PARTNERS AND PROJECTS

**We don't try to be all things to all people.
We are specialists.**

Orange Hire is an industry leader servicing a handful of niche markets. We provide exceptional service and equipment to the civil and construction industry.

We know project requirements and the ability to offer flexible solutions are key to success on large scale projects.

This success has come as the result of an unflinching commitment to service, safety and quality.

By focussing on selected markets and aligning our product range to suit specific customers, we can provide the right equipment, deliver on time, and truly delight our customers.

Our Partners

Orange Hire partners with a range of organisations at both industry and community level. These organisations are an integral part of Orange Hire operations:

Civil Contractors Federation

Hire and Rental Industry Australia

Some of our Key Customers and Projects

WE ASKED OUR CUSTOMERS:

What frustrates you when it comes to hire?

- Being offered equipment that is old, unreliable or unsafe
- Companies that are sloppy, resulting in admin errors and slow response times
- The right equipment isn't available when you need it
- Delays due to late deliveries or pickups
- Hire companies staffed with people that don't understand the equipment

WE HEAR YOU!

This is why our customers choose Orange Hire:

- Our team is helpful, friendly and knowledgeable
- We follow up quotes and enquiries quickly
- We deliver the newest, most reliable equipment
- We focus on communication and always keep our customers informed
- We arrive on time
- We get it right the first time, avoiding messy credits or reworks
- Feedback is critical: we listen and fix what isn't working

And we put safety first, in everything we do.

0.8T MINI EXCAVATOR

Product Overview

- Ultra-compact design for narrow access
- Swing boom up to 60 deg
- Adjustable track width

1.7T MINI EXCAVATOR

Product Overview

- Zero tail swing, ultra-compact design
- Swing boom up to 65 deg
- Adjustable track width

2.5T MINI EXCAVATOR

Product Overview

- Zero tail swing
- Swing boom up to 75 deg

3.5T MINI EXCAVATOR

Product Overview

- Zero tail swing
- ROPS/FOPS or A/C cab or open cab
- Swing boom up to 70 deg

5.5T MINI EXCAVATOR

Product Overview

- Easy-open front slide windows
- Enhanced digging force
- Tight tail swing
- Digital control panel

8T EXCAVATOR

Product Overview

- Reduced swing radius
- Swing boom up to 70 deg

Excavators - 10T - 35T

Get the job done faster with the right excavator.

Our range of medium to large excavators will help you get the job done right, no matter what it is! They have a range of features you need to meet your jobsite requirements. If you are not sure which is the right excavator for you, one of our team can help you.

TILT BUCKET

Product Overview

- Suits 2.5t – 35t excavators
- Designed to tilt 30-45 degrees both left and right
- Hydraulic tilt with quick coupler

SIEVE BUCKET

Product Overview

- Suits 1.7t – 35t excavators
- Sorting and sifting mixed size materials

AUGER AND DRILL BITS

Product Overview

- Auger bits to suit most soil and rock applications
- Range of sizes available

AUGER DRIVE

Product Overview

- Suits 0.8t – 35t excavators
- Hydraulic auger drive motor
- Planetary drive provides torque required for drilling power

COMPACTION PLATE

Product Overview

- Suits 4.5t – 35t excavators
- Backfilling slopes and inclined compaction
- Protected hydraulic system

PULVERISER

Product Overview

- Suits 20-35t excavators
- Suits a variety of machines
- Interchangeable jaws

COMPACTION WHEEL

Product Overview

- Suits 3.5t – 35t excavators
- Provides efficient soil compaction
- Padfoot drum wheel

ROCKSAW

Product Overview

- Suits 3.5t – 30t excavators
- Designed to cut through tough rock, sandstone or concrete
- Range of hitch dimension sizing configurations available

HYDRAULIC ROCK BREAKER

Product Overview

- Suits 0.8t – 50t excavators
- Easy to fit, operate and grease on site
- Range of hitch dimension/ sizing configurations available

RIPPER

Product Overview

- Suits 0.8t – 35t excavators
- Used to pry out rocks, rip through tough ground or break through other tough materials

BARRIER GRAB

Product Overview

- Suits a range of barrier types including F type jersey barriers, single slope barrier wall and Deltabloc concrete barriers
- No auxiliary hook ups required

HYDRAULIC ROCK GRAB

Product Overview

- Suits 3.5t – 35t excavators
- Used to lift and shift large/ bulky items
- Wide opening jaws for grabbing and gripping
- Hydraulic and manual styles available

MULTI GRAB BUCKET

Product Overview

- Suits a wide range of excavators from 2t up to 50t
- Large jaw opening picks up heavy objects
- Extra large hydraulic cylinder for maximum grab strength

Loaders

Loaders in every size to suit your job, whatever it may be.

As the largest specialist provider of dry hire earthmoving equipment, we have a huge range of skid steer and posi track loaders perfect for your jobsite, no matter how large or small. Many of these compact loaders are great for those tight access sites and work with a range of attachments.

Inclusions:

- Hydraulic quick hitch
- Pneumatic or solid tyres
- Reverse camera and UHF radio
- Risk assessment and service history,
- Conditional registration

Options:

- Plant trailer
- Bladed or toothed buckets
- Large range of attachments to suit various models. See page 22 and 23

30-40HP TRACKED LOADER

Product Overview

- Very low ground pressure
- Ultra compact track loader 1250mm wide
- Iso Pilot (joystick) operator controls

50-75HP TRACKED LOADER

Product Overview

- A/C cabin
- Iso Pilot (joystick) operator controls,
- Vertical lift and self leveling bucket make for easier load dumping tasks

50-75HP SKID STEER LOADER

Product Overview

- Iso Pilot (joystick) operator controls, two speed travel
- Add to skid
- Vertical lift and self leveling bucket make for easier load dumping tasks

90-100HP TRACKED LOADER

Product Overview

- A/C cabin
- Iso Pilot (joystick) Operator Controls
- Vertical lift and self leveling bucket for easy load/dumping
- Standard and high flow auxillary hydraulics

4-IN-1 BUCKET

Product Overview

- Fits a variety of posi tracks and skid steers
- Fits all sizes of machines -
- Features a dozer, serrated edges, a box blade, and a bucket

MULCHER

Product Overview

- Heavy duty forestry mulcher
- Shred/grind up to 200mm diameter hardwood trees
- Rotary drum with steel teeth
- 90-100hp track loader with universal loader hitch size
- High flow hydraulic system with case drain

TRENCHER

Product Overview

- Used for cutting through hard soil, roots, rock, asphalt, soft shale and other surfaces
- Ideal for landscaping, civil contractors, pipe layers and more
- Cutting width of 100/150/200mm
- Max cutting depth 900mm

BLADE BAR

Product Overview

- Grading and spreading material
- Width: 1700-2150mm
- Length: 1500mm
- Attachment weight: 390kg
- Suitable for machines 50hp and above

SLASHER

Product Overview

- Effective cutting and clearing of grass and low ground shrubbery
- Suitable for standard flow machines
- Heavy duty construction

GRAPPLE BUCKET

Product Overview

- Hydraulically operated grapple fitted to a rock bucket to provide a grabbing arm to trap and contain debris

SIEVE BUCKET

Product Overview

- 1200mm and 1500mm
- Made from High Strength Steel

PALLET FORKS

Product Overview

- Move pallets over harsh terrain
- Weight capacity: 1500/1800kgs
- Lockable tine position
- Tine length: 1070mm

AUGER DRIVE MOTORS AND DRILL BITS

Product Overview

- Hydraulic auger drive motor
- Auger bits to suit most soil and rock applications
- Planetary drive provides torque required for drilling power

BUCKET BROOM

Product Overview

- Varying widths available
- Reversible broom rotation, windrow material

LEVELLING BAR

Product Overview

- Also known as a spreader bar or smudge bar
- Picked up in jaw of 4in1 bucket for use
- Variety of sizes to suit different loader

ROTARY AXE

Product Overview

- Fits a variety of Posi Tracks and Skid Steers
- Ideal for clearing vegetation
- Cuts trees up to 180mm

HARLEY RAKE

Product Overview

- Versatile attachment with many uses
- Drum with carbide teeth spikes
- Adjustable height
- Various drum width models to suit track loader size and application
